**VMF/200 - VMF/203**

# VMF/200 VMF/203:

## ATTRACTIVE, SLIM-LINE AND EASY TO INSTALL.

The VMF/200 - VMF/203 monitor with handset **stands out from the wall by only 72 mm** and is extremely easy to install: entirely surface-mounted. In addition, using the special VKT/203F kit, it becomes a **table-top version**.

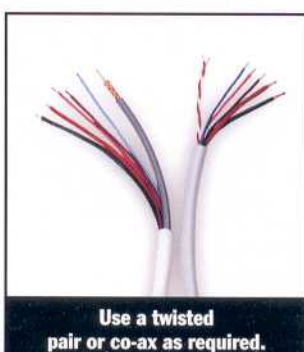

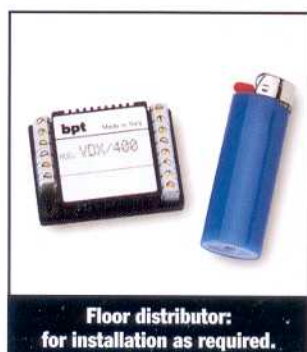

**VMF/200** is the **standard** version; **VMF/203** is the **intercom** version featuring three buttons for calling other internal units.

Available in two colours: **white and anthracite**.

Standard features: **ON/OFF control** (enabling the occupant to not be disturbed); **entry panel activation**; stair light control and door lock release control.

The **"stair light"** and **"door lock release"** controls are only enabled following a call from the entry panel or following self-connection: this is to avoid switching on the light or accidentally opening the door.

### VMF/200 AND VMF/203 ARE PART OF BPT'S SYSTEM 200 VIDEO ENTRY SYSTEM.
