

Standard kits for remote door and gate operations

D5601GB and D5731GB

FEATURES AND CHARACTERISTICS

Because it uses radio technology, our doorphone system is totally wire-free and totally mobile.

As there is no wiring required with the outdoor caller unit, the Daitem doorphone system opens up a whole array of possibilities: multiple handsets, total mobility, no damage to interior design, and so on.

Our standard kits feature these functions:

- Can be used to welcome visitors and control the following from inside the dwelling:
 - 1 electric latch or lock
 - 1 main gate automatic control system
 - outside lighting
- Interior handset unit can be placed anywhere in the home (radio operated)
- Mobile handset unit
- Unlimited number of handsets
- Handsfree and handheld operation
- Offline operation
- LCD screen
