

LVA0660D

Vari-focal lens of 6mm to 60mm with DC Iris perfect for fitting with 1/3" cameras for installations with varying light conditions.

FEATURES AND CHARACTERISTICS

Suitable for cameras with 1/3" or lower sensor cameras.

Adjustable vari-focal from 6mm to 60mm with screw locking for a wide angle view or tele-photo view.

Connection to camera is quick and easy thanks to the 4-pin plug.

Diaphragm opening / closing adjusted automatically (auto-iris) controlled by the camera to assure a better response with respect to incident light on DC direct drive mode.
